

ISHARA PALANGASINGHE

Software Engineering Intern | Final-Year ICT (Hons) Undergraduate

• (+94) 762712761 • isharapalangasingha@gmail.com • Matara, Sri Lanka

• [linkedin.com/in/ishara-palangasinghe](https://www.linkedin.com/in/ishara-palangasinghe) • github.com/ishara425 • ishara-portfolio-sepia.vercel.app

PROFESSIONAL SUMMARY

Final-year BICT (Hons) undergraduate with proven, project-backed experience in full-stack development, RESTful API design, and cloud computing. Skilled in building scalable, production-ready web applications using React, Spring Boot, and Node.js, with hands-on exposure to JWT/RBAC authentication, Agile/Scrum workflows, and AWS/Azure deployments. A collaborative team player looking to apply real-world technical skills in a challenging Software Engineering internship.

TECHNICAL SKILLS

Languages: Java, JavaScript, Python, C, Dart

Frontend: React.js, HTML5, CSS3, Tailwind CSS

Backend: Spring Boot, Node.js, Express.js, Hibernate, REST APIs

Databases: MySQL, Supabase, Sequelize ORM

Cloud & DevOps: AWS, Azure, GitHub Actions, Vercel, Terraform (Basic)

Mobile: Flutter (Dart)

Tools: Git, GitHub, IntelliJ IDEA, VS Code, Postman, Jira, ClickUp

Core Concepts: OOP, DSA, RESTful API Design, Agile/Scrum, JWT, RBAC

EDUCATION

Bachelor of ICT (Hons)

2022 – Present

University of Ruhuna, Sri Lanka

Relevant Coursework: Artificial Intelligence, Object-Oriented Programming, Software Engineering, Core & Advanced Java, MySQL, Flutter, Distributed & Cloud Computing, Computer Networking, Application Security, Agile Development.

G.C.E. Advanced Level

2020

Mahinda Rajapakse College, Matara

A (ICT), B (SFT), C (BST) | District Rank: 25

PROJECTS

Medicine Stock Management System

Nov 2025 – Dec 2025

Personal Project | github.com/ishara425/medicine-stock-management

- Designed and delivered a full-stack inventory platform for Public Health Inspectors, built to manage 50–200 medicine types with real-time stock monitoring, low-stock alerts with visual indicators, and batch-level tracking.
- Architected a RESTful API connecting a React frontend to a MySQL database, supporting end-to-end medicine distribution workflows from requisition to dispatch.
- Tech Stack:** React.js, Node.js, Express, MySQL, Tailwind CSS, REST API

AIESEC in Ruhuna – Event Management Module

Jan 2025 – Jul 2025

Group Project | github.com/hewageumesha/AIESEC_Ruhuna

- Constructed the full-stack Event Management module serving 200+ active AIESEC members, incorporating CRUD operations, RBAC with 4 permission tiers (LCP, LCVP, Team Leader, Member), and an analytics dashboard tracking event metrics across all events.
- Streamlined merchandise and t-shirt order tracking, reducing administrative overhead and eliminating manual order reconciliation for organizers.
- Tech Stack:** React.js, Spring Boot, MySQL, Tailwind CSS, REST API

Hotel Reservation & Guest Services Management System-Service Catalogue

Oct 2025 – Nov 2025

Group Project | github.com/Nepul1234/HRGSMS-ADBMS-Project

- Built the Service Management module for Morena Hotels, enabling a service catalogue with Azure-hosted image storage and multi-branch support across 3+ property locations.
- Deployed and configured MySQL on Azure, integrating Sequelize ORM to streamline data access and eliminate repetitive raw SQL across the application.
- Tech Stack:** React.js, Node.js, Express, Sequelize ORM, MySQL (Azure), Tailwind CSS

Multi-User Chat Application

Mar 2025 – May 2025

Group Project | github.com/hewageumesha/ChatAppSystem

- Developed a secure multi-user desktop chat application using Java Swing and RMI for real-time communication.
- Implemented user authentication and profile management using Hibernate and MySQL, with a robust client-server architecture and admin-controlled access.
- **Tech Stack:** Java Swing, Java RMI, Hibernate ORM, MySQL

RESEARCH

Optimization of Cloud Object Storage via Infrastructure-as-Code

2026 – Present

University of Ruhuna

- Conducting research on optimizing cloud object storage using Infrastructure-as-Code (Terraform, AWS), with a focus on scalability and cost efficiency.

ACHIEVEMENTS & EXTRACURRICULAR

Winner (1st Place) – Hacktrail 1.0 Hackathon

2024

Organized by ICT Students' Circle, University of Ruhuna

- Achieved 1st place in a university-level problem-solving hackathon through effective collaboration and creative problem-solving

Academic Mentor – ICT Students' Circle

2024 – Present

University of Ruhuna

- Provide technical mentoring and academic guidance to junior ICT students, assisting with coursework, projects, and skill development.

CERTIFICATIONS

- Front-End Web Development – Centre for Open & Distance Learning (CODL) University of Moratuwa (2024)
- Web Design for Beginners – Centre for Open & Distance Learning (CODL) University of Moratuwa (2024)
- Introduction to Web Design and Development -LinkedIn Learning (2024)
- Advanced Java Programming - LinkedIn Learning (2024)
- Introduction to Dart - LinkedIn Learning (2024)
- DevOps Foundations: DevSecOps - LinkedIn Learning (2024)
- Kubernetes: Microservices - LinkedIn Learning (2026)
- AWS Workshop with Terraform – KodeKloud (2026)
- Crash Course: AWS Basics - KodeKloud (2026)

PROFESSIONAL SKILLS

• Communication (Sinhala, English) • Problem-Solving • Time Management • Attention to Detail • Agile Teamwork • Self-Motivated Learning
